Re: Triangle Parcel, Lower Silver Creek, Voluntary Cleanup Site VCP #070, Park City, Utah

Dear Mr. Blankenau and Mr. Jasper:

The Division of Environmental Response and Remediation (DERR) has completed review of the revised *Work Plan Sampling And Analysis Plan and Quality Assurance Project Plan Voluntary Cleanup Program Triangle Parcel Lower Silver Creek (SAP/QAPP)* dated July 18, 2011, for the referenced site. This review was conducted as required by the provisions of the Voluntary Cleanup Program (VCP).

Based on the review, the DERR has no additional technical comments on the SAP/QAPP. The document addresses comments from the U.S. Environmental Protection Agency (EPA) as well. Please implement the activities proposed in the SAP/QAPP as soon as possible. Please continue to keep the DERR informed of the field schedule, including the upcoming surface water sampling, so that the DERR can be present to oversee the field work and collect split samples. Surface water samples should be collected this year due to the exceptionally high water.

Thank you for your participation in the VCP. If you have any questions, please contact me at (801) 536-4104.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Katz', is positioned above the printed name.

Joseph Katz, Project Manager
Division of Environmental Response and Remediation
